PERMIT ISSUED FOR THE EMERY COUNTY LANDFILL

Emery County submitted a permit renewal application to operate the Class I Landfill located near Castle Dale, Utah approximately 2.4 miles north of the intersection of State Highway 29 and Danish Bench Road. The landfill may accept non-hazardous solid waste including municipal solid waste, commercial waste, industrial waste, construction/demolition waste, and special waste as stipulated by the permit. The Utah Division of Solid and Hazardous Waste reviewed the application and determined it to be complete. The application and a draft landfill permit were released for public comment. The 30-day public comment period was announced in the *Salt Lake Tribune*, *Deseret Morning News*, and the *Emery County Progress* on March 21, 2006. No comments were received. The permit was granted and became effective May 15, 2006
